

# IMO – Passion for German Technology

We`d like to point out that - unlike most other companies - we continue to produce all our slewing rings and slew drives in Germany. We do not outsource production to other countries, nor did we enter a Joint Venture aiming at this. For more than 30 years, our customers have chosen German-manufactured IMO products - and for good reason.

We are passionate about technology and feel obligation for the quality of our German slewing rings and slew drives.

严正声明：IMO 所有产品均为德国工厂生产制作，未找任何一家轴承厂家代工或合资生产，将追究一切编造代工或合资生产 IMO 产品造谣者法律责任，特此声明！最终解释权归 IMO。
